

Mateus Lino

BI Analyst · Sicoob Frutal

hello@mateuslino.com • mateuslino.com • linkedin.com/in/mateusflino • github.com/LipeLino

I work in business intelligence at Sicoob, Brazil’s largest cooperative financial system: my reports inform the board’s decisions, and my automations and internal apps take manual work off the teams. I also develop web platforms such as RedeAgromet, a public weather-data service that began as my undergraduate research and became my first-author paper.

Experience

Co-founder and developer, Veranila	Fator S Pré-Acelera · SEBRAE · NIT/UEMG Frutal	Aug 2026 – present
• I’m turning Veranila, our irrigation startup, into a validated business in a 12-week pre-incubation programme. • First of 12 teams in the selection, with a score of 96.		
Business Intelligence Analyst	Sicoob Frutal	Nov 2025 – present
• Credit-risk report in Power BI: provisioning scenarios and Basel indicators. • Refresh time cut by 90%, with drill-through to the details. • Python automations save the teams about a workday a week. • CoopSolv: internal apps replacing shadow spreadsheets and VBA macros, from budgeting to prize draws. • CoopData: an on-premises data lake and BI platform I designed, now in pilot.		
Data Analyst (intern)	Cervejaria Cidade Imperial	Sep 2023 – Sep 2025
• Built the IT department’s reporting and governance over a two-year internship.		
Web Developer	Avance Consultoria Júnior · UEMG	Apr 2024 – Apr 2025
• Built websites for the junior enterprise and its clients, from requirements to pricing and delivery. • SCAPOLA: co-built a communications agency’s live site and CMS.		
Volunteer Informatics Teacher	Guarda Mirim de Frutal	Jul 2024 – Nov 2024
IT Technician	Colômbia City Hall · SP	Jun 2022 – Jul 2023

Education

Bachelor of Science	UEMG · Universidade do Estado de Minas Gerais, Frutal, Information Systems	2022 – 2025
Undergraduate Research Scholarship	FAPEMIG / UEMG, Agrometeorology and web platforms	2024 – 2025
Technical Diploma (integrated with high school)	Food Science	2018 – 2021
IFSP · Federal Institute of São Paulo, Barretos		
POSCOMP 2025	Computing, 46/70 · top 10% (national average 35.4 · Maths 19/20)	2025

Publications

Automation in the measurement and dissemination of agrometeorological data in Southern Triângulo Mineiro	2026
Revista Agrogeoambiental · First author · doi.org/10.18406/2316-1817v18nunico20262109	

Certifications

Microsoft Certified: Power BI Data Analyst Associate (PL-300)	2025
CPA · Professional Certification	ANBIMA · 2025
PSS Certification	Sicoob · 2025

Selected projects

RedeAgromet	A public platform that turns data from automatic weather stations in the Southern Triângulo Mineiro into maps, charts and reports.	redeagromet.com.br
Veranila	Tells a farmer when and how much to irrigate, from the weather on their own farm.	mateuslino.com/builds/veranila

Skills

Data & BI	Power BI (DAX, Power Query), SQL, Excel & VBA, ETL & data pipelines, Python, Deneb (Vega-Lite)
Web development	TypeScript, React & Next.js, Tailwind CSS, Node.js, Rust, Electron & Tauri
Cloud & infrastructure	Supabase & PostgreSQL, AWS (Lambda, EventBridge, SES), Vercel & serverless, Auth, RLS & security
Governance & methods	ITIL, Scrum & agile, Data protection (LGPD)
Languages	Portuguese (native), English (C2), German (A2), Italian (A2)
